Services

Manned & mobile security services

Mobile security officers carry out regular patrols to physically check that everything is as it should be on the premises and in their surroundings. The officer produces a report following each visit and where there is an immediate problem that needs dealing with, the client would be informed immediately and where necessary, the officer would contact and liaise with the police.

Manned security services give you guards that provide a constant presence at the site being guarded. The security guard is vigilant foreseeing and preventing dangerous situations from arising, acting fast in an emergency, and able to diffuse tension using tactics and diplomacy.

Front Of House Security

Our front-of-house officers are trained to provide great customer service with good communication skills. They have gone through conflict management training and give friendly smiling faces to welcome visitors. They are neat and smart at all times and handle guests courteously and professionally.

Reception Security

Our trained security officers ensure any person attempting to gain access to your premises has your permission and only gives access to permitted areas with valid reasons. All visitors will be required to sign the visitors' book and only enter after being issued a security pass and they will all be signed out before they leave your premises.

The splash security officers tasks include;

- 🛡️ Keep tabs on the visitor's log
- 🛡️ Help visitors with directions
- 🛡️ Provide support to the reception staff
- 🛡️ Escort visitors
- 🛡️ Handle first aid and other emergencies

VIP Protection & Escort

We offer VIP security personnel that are highly trained security specialists with expertise and experience in all aspects of personnel protection for individuals and groups of people. Provide covers at home and on the move, shadow special visitors, plan routes, prepare venues and ensure strict scheduling of planned events by our security agents and professional drivers as well.

Event Security

We prepare a risk assessment report before the event date through continuous consultative meetings with event stakeholders. We set up a temporary control room at the venue of the event that facilitates the entire security coordination during the event. Our company also works with the police at all sorts of events. we are also a flexible workforce that is ready, vetted, and trained to respond to short notice to manage events

Parking lot Security

Splash security will keep watch over your organization's car parking facilities and car parking at events. officers carry out frequent but deliberate random patrols to ensure visitors park correctly in the designated spaces and enforce rules and charges.

K9 units

These k9 units have superior dog breeds observed, selected, and extensively trained by a team of experts in dog handling. They are sensitive to sniffing drugs, cash notes, and others. We also have attack dogs that provide a high-profile deterrent against thieves and vandals.

Background Checks & Screening

We provide background screening services to prospective clients to track down people, valuable details, and evidence. The investigators use tech skills and information to know how to regularly access online public records and private databases and/or act as under covers detectives to unearth information that is risky and /or suspicious.

Alarm & Response Unit

We have alarms that are wired using the closed-circuit principle that cannot be detected to prevent being cut. push buttons that are manually operated. In case of an emergency, the push button is pressed which activates the transmitter to call for backup. We also have domestic automatic alarm systems that consist of two magnets or contact, two passive infrared sensors, a panel that controls the above, and a minimum of three panic buttons. the system detects intrusion and triggers the alarm. As soon as the alarm receiving center gets the signal, we respond quickly, contact the police, and often reach the premises before the police.

We use the uniformed response team and liliated vehicles to carry out checks, ensure your premises are safe and liaise with the emergency services.

Installation Of Closed-circuit Television (Cctv)

We install cameras at appropriate areas of protection per the client's preference. The CCTV comprises cameras, monitors, and video recordings that allow the client to monitor all the activities while absent or present. CCTV can also be computer-based which allows the client to monitor all the activities from a certain location or through networking.

Vehicle & Assets Tracking

Knowing where your vehicles, equipment, and assets are is essential to fleet operations therefore Splash security provides tracking capabilities to provide near global GPS visibility, event monitoring, and remote asset data so that you can easily monitor your assets wherever they are located also provide static security officers that move with you

General Security Consultancy

Our company enters any consulting assignment with unique and detailed information on your facility, workflow, security system, and business goals. This knowledge combined with high-security services experience and collaborative discussion with your stakeholders helps you to find the security solution that works best for you and your business.

Supply Security Equipment

We provide a wide range of security equipment that covers a wide assortment of protection, identification, surveillance, and detection devices such as alarm systems, cameras, closed-circuit televisions, etc. We also provide some more basic items such as tags, cases, access cards, smart locks, and mirrors.
